

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the biggest independent spreader business in the globe. They are a devoted maker of spreaders meant for lots of several applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by way of making use of all of the latest FEM tools and CAD systems. The ELME company currently has over 125 personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-over the globe.

The ELME product series offers spreaders for various container and trailer handling operations. Some of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a wide array of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they made 1150 spreaders by way of making use of quality parts so as to guarantee dependability and excellent standards. Major characteristics of ELME include design simplicity, market response and inventive modular spreader concept.
