

Meritor Parts

Meritor Part - Meritor is a premier global supplier which is proudly built on a one hundred year custom of service and quality. They concentrate on several integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the wishes of all their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor encourages innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in only employing future focused people. These top-caliber people could quickly get used to to changing environments and freely exhibit the level of commitment and performance necessary to get results for the competitive market environment. The business empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor provides their workers different chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering that consist of axles, drivelines, suspension and braking systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the needs of all their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the globe in 19 nations and in 5 different continents.

The supplier development network is specially located in order to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within each part of the business. The DFSS or also known as Design for Six Sigma ensures product reliability within every region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean methods.
