## **Axle Tech Parts**

Axle Tech Parts - AxleTech International is a leading supplier in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its clients' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for delivery, quality, service and technology. They believe in working in an atmosphere which encourages the utmost integrity with empowered teamwork, along with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and offering a safe environment for their workers to work in. In addition, they have applied several programs within the organization so as to help convey these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any comments or questions, as they are glad to promote and share this policy with a greater knowledge of their efforts. They are extremely dedicated to improving and preserving the natural environment. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their staff and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both commercial and military applications. These applications range from construction equipment to airport ground support. AxleTech specially designs axles to meet certain application demands. They have over one thousand different axle specs in their existing offering. With over one hundred years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The business is well known in numerous military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have added details which could be seen in the "ISAS" product collection.
